PROFILE

I am a fullstack developer passionate about building accessible, high-performance user interfaces. I thrive on solving technical challenges to create smooth, reliable experiences that provide real value to the user.

While following the provided design direction, I turn ideas into functional, pixel-perfect solutions.

WORK EXPERIENCE

Freelance 2024 - PRESENT
Fullstack Web Developer

- Planning, development, and deployment of web applications for various clients

24HR Malmö 2022 - 2024
